

CHILD SAFETY

AT THE WINDOW

HunterDouglas

Duette® honeycomb shades with LiteRise®

DESIGNED WITH SAFETY IN MIND

Children are innately curious about the world around them. So, even basic household items like window treatments can turn into potential hazards for them. Making our window fashions safer for homes with infants, young children and pets is a top priority at Hunter Douglas. That's why we developed a wide range of products to help reduce the risk of accidents.

From cordless alternatives to motorized operation systems, we offer many innovative lifting systems designed with safety, convenience and beauty in mind. Choose from an abundant array of colors and materials that complement your nursery today and your teen's room tomorrow. Read on to learn more about the many safety features we offer, and visit hunterdouglas.com to see our full collection of custom window fashions.

MAKING OUR WINDOW FASHIONS SAFER FOR HOMES WITH INFANTS, YOUNG CHILDREN AND PETS IS A TOP PRIORITY AT HUNTER DOUGLAS.

INNOVATIVE, CREATIVE, BEAUTIFUL SOLUTIONS

Designer Roller Shades with PowerRise® 2.1 with Platinum™ Technology

CORDLESS ALTERNATIVES

LITERISE®

With our LiteRise® cordless operating system you simply use your fingers to raise or lower the product. LiteRise will eliminate the need to have an operating cord, while also offering a more streamlined appearance.

SIMPLELIFT™

A value-priced alternative to LiteRise®, SimpleLift™ enhances both beauty and safety. Just raise and lower with the contoured bottom rail—no handle or cords required with this cordless operating system.

MOTORIZATION

Hunter Douglas offers a wide variety of window fashions with motorized options that eliminate lift cords and provide the ultimate convenience. Better yet, your home's safety is enhanced without the presence of dangling cords. It's easy to control your motorized window fashions by remote, wireless wall switch or even with a tap on your Apple® or Android™ mobile device thanks to our Platinum™ App.

CORDLESS ALTERNATIVES, CONTINUED

VERTIGLIDE™

The Hunter Douglas Vertiglide™ operating system is the ideal choice for side-to-side openings, sliding glass doors or as a room divider. No lift cords, chains or wands make the Vertiglide system a natural choice for enhanced safety.

WAND CONTROL

On certain vertically oriented window fashions, a single, sleek wand controls all functions and replaces potentially hazardous operating cords.

CLUTCH LIFTING SYSTEM

For enhanced safety, our spring-like clutch lifting system features a decorative pull in place of a traditional operating cord to raise and lower the shade.

CUSTOM SHUTTER COLLECTION

All Hunter Douglas shutters are cordless by design, eliminating potential safety hazards posed by operating cords. They add extraordinary beauty to any room and are especially well suited to homes with young children.

A FAMILY OF PRODUCTS TO ENHANCE SAFETY

Silhouette® window shadings with UltraGlide®

OTHER SAFETY FEATURES

ULTRAGLIDE®

A retractable pull-cord enhances safety in this patented Hunter Douglas system. Whether the shade is raised or lowered, the cord maintains a constant length and is less accessible.

COMBINATION WAND/CORD

This combination function integrates both tilt and traverse functions into one easy-to-use control that keeps the cord taut.

OTHER SAFETY FEATURES

CORD TENSIONER

Our cord tensioner is designed with spring tension and bracket. When properly installed, it holds looped cords taut to reduce the risk of an inquisitive child becoming entangled.

CORD CLEAT

Designed for standard cordlock products, our cord cleat allows excess cord to be tightly wrapped around it for both enhanced safety and a neater appearance at the window.

SAFETY IS EVERYBODY'S BUSINESS

Duette® Architella® honeycomb shades with LiteRise®

WARNING NOTIFICATIONS

The window coverings industry uses warning tags, warning labels and other methods to communicate the potential hazards of corded window coverings. The warnings shown here, for example, communicate the important message about cords being a potential strangulation hazard, and suggest choosing cordless alternatives or products with inaccessible cords. Together with the Window Covering Safety Council, Hunter Douglas encourages you to install only cordless window coverings in rooms where young children play and sleep.

COMBINE FORM, FUNCTION AND SAFETY.

At Hunter Douglas, we strive to design products that not only beautify windows and home décor, but also incorporate features with child safety in mind. We encourage you to visit hunterdouglas.com to learn more about the largest, most diverse collection of window fashions on the market today.

To order a free retrofit kit for older window treatments or simply replace them with a cordless window treatment, contact the WCSC directly:
Phone: 1-800-506-4636

PREVENTION BEGINS WITH AWARENESS

- Position cribs, beds, playpens and other furniture on walls without windows and window cords.
- Check your current window treatments for exposed or dangling cords.
- Keep cords out of reach of children.
- Eliminate any dangling cords with cordless window treatments.
- Permanently anchor continuous cord loop window covering cords to the floor or wall.
